GRADING OF SOURCE

COLLECTOR'S PRELIMINARY GRADING OF CONTENT

The Yugoslav Government through the GDI III (sic) purchased in France in July 1950 two jet airplanes, models S.O. 6000. These are equipped with Rolls Royce "Nene" engines, which were manufactured by the Hispano-Suiza Firm under license in France. Four additional "Nene" engines were likewise purchased by the Yugoslav Government at this time.

25X1A

**Comment:** The existence in Yugoslavia of runways sufficiently long to permit the landings and take-offs of jet planes is seriously doubted. The S.O. 6000 model requires a runway 1,500 meters long.
